- Comes standard with Wireless Controller that can infinitely adjust speed from creep to 4ft/min with speed dial and max of 41ft/min in high speed
- TAA Approved
- Single phase 120V plug enables use in all areas and the Permanent Magnet Brushless Motor has the lowest required starting current available at just 10amp.
- Overload protection using slip clutch system to protect hoist from loads over rated capacities
- DC Brushless motor designed for a longer lifespan than normal Electric Hoist motors reducing maintenance costs

Specials are only valid for STAFDA event attendees for dates specified. Offer for specified Sku's only.

Cannot be combined with any other promotions unless noted.
