WALTER

Since 1952, WALTER Surface Technologies has been providing metalworking solutions to industrial professionals with the ultimate goal of helping them work better. WALTER's solutions last longer to reduce downtime, provide consistent performance for optimal results, and are manufactured to the highest safety standards to keep metalworking professionals safe while they do their job. Our solutions help organizations lower their overall cost while improving the safety and efficiency of their metalworking processes.

ABRASIVES

Highest quality materials and designs for most common metals including steel, stainless steel and aluminum.

PERSONAL PROTECTION EQUIPMENT

Keeping you safe every step of the way.

WELD CLEANING & PASSIVATION

Designed to obtain ASTM A967 certified passivation with greater safety (registered to be used in food plants).

WORKPIECE & EQUIPMENT PROTECTION

Reduce time spent cleaning or removing weld spatter.

CUTTING FLUIDS, LUBRICANTS & MRO

Developed and formulated to the most rigorous standards of quality.

CLEANERS, SANITIZERS & DISINFECTANTS

Improve worker safety conditions, increase sustainability & reduce waste without compromising on productivity.

HOLE MAKING, THREADING & SHAPING

Make more holes faster in all metals.

POWER WIRE BRUSHES

Premium wire and perfectly balanced.

POWER TOOLS

Power. Performance. Reliability. Versatility. Safety.
